WHOLESALE PRICE LIST

Spring 1951

February 14, 1951

TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

APPLICATION OF PRICES:—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10. 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

Small Quantities:—Less than five of a variety and size is not wholesale, but, for the convenience of our wholesale customers, such orders will be filled at a premium of 5c per plant over the rate per ten with the exception of Evergreens and Deciduous Trees. On Deciduous Trees the premium will be 10% of the rate per ten but not less than 10c per plant.

Special Marking:—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

TERMS OF PAYMENT:—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

Cash Before Shipment:—A 3% discount will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

C. O. D. Shipments:—Orders for C. O. D. shipment should be accompanied by cash for one-third of the amount of the order to insure acceptance.

CLAIMS:—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

GRADES:—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

PACKING:—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

BOXING CHARGES:—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30 by 30 inches	\$ 8.00	\$ 7.00	\$ 6.00	\$ 5.00
24 by 30 inches	7.00	6.50	5.75	4.75
24 by 24 inches	6.50	6.00	5.50	4.50
18 by 24 inches		5.25	4.50	4.00
18 by 18 inches		4.75	4.00	3.50
12 by 12 inches		3.50	2.90	2.40

Veneer Boxes 24 by 30 inches by 7½ feet—\$4.00.

Bales 50c to \$4.00 each depending on size.

TERMS AND CONDITIONS OF SALE — Continued

NON-WARRANTY AND LIABILITY:—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

DIRECTIONS FOR SHIPPING:—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and risk and cost of transportation belong to the customer.

While we use every means at our command to secure prompt delivery, **WE ARE NOT LIABLE FOR DELAYS IN TRANSIT; OUR RESPONSIBILITY ENDS UPON DELIVERY IN GOOD ORDER TO THE CARRIER.** Remedy for loss must lie between the buyer and the carrier, but we will gladly render any aid that we can.

NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 2% Sales Tax require that in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 2% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

TO THE TRADE

LOCATION AND SHIPPING FACILITIES:—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

TRUCK DELIVERIES:—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois, Indiana, Iowa, and points east and north of the Chicago transfer. Rates in most instances are the same or nearly the same as local railroad freight rates.

Where the size of the shipment warrants, we can often arrange for direct deliveries within Illinois in bulk by truck at reasonable rates. Cost of deliveries by such chartered trucks will be quoted on request.

Customers who wish to send their own trucks for bulk loading should, without fail, make arrangements in advance so that we may have the stock ready when the truck arrives. Labor conditions are such that, except in rare instances, it is very doubtful if we will be able to fill any truck orders without such advance notice. Care should be taken that all trucks carry sufficient tarpaulins to properly cover and protect the stock as we can accept no responsibility whatever for the condition of the stock after it leaves our hands.

FRUITS

Caliper—It is intended that the caliper shall govern in the grading of fruit trees. Heights given are approximate only and represent the average height of most varieties, but some slow growing varieties may fall short of the heights specified.

APPLES

	Per 10	Per 100	Per 1000

DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

An additional charge over list prices is made for stock marked in the field by the customer.

	Per 10	Per 100
ACER platanoides — Norway Maple 60-80 ft.		
One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park plantings.		
6 to 8 feet, branched	\$22.00	\$200.00
platanoides ascendens — Pyramidal Norway Maple		
A narrow-pyramidal form of the Norway Maple with short ascending branches. A narrow upright tree, particularly valuable for accent and street planting.		
5 to 6 feet, whips	15.00	130.00
6 to 7 feet, whips	16.50	150.00
platanoides Schwedleri — Schwedler Purple-leaved Maple		
A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer.		
5 to 6 feet, whips	15.00	130.00
6 to 7 feet, whips	16.50	150.00
rubrum — Red or Scarlet Maple 50-60 ft.		
An attractive round-headed tree with light gray bark and good foliage that turns a bright scarlet in the Fall.		
4 to 5 feet, whips	11.00	100.00
5 to 6 feet, whips	15.00	130.00
5 to 6 feet, branched	20.00	180.00
6 to 8 feet, branched	25.00	

CRIMSON KING MAPLE

Acer platanoides schwedleri nigra (Plant Patent 735)

An improved Schwedler Maple with much deeper foliage color, which it retains throughout the Summer. Deep rich purple foliage.

	Per 10
5 to 6 feet, whips	\$25.00
6 to 7 feet, whips	32.50

	Per 10	Per 100
BETULA alba — European White Birch 30-40 ft.		
A handsome graceful tree with white bark.		
Clump Form — 3 stems and up—5 to 6 feet	\$20.00	\$
Birch — see Betula.		
CATALPA bungei — Umbrella Catalpa		
Double-budded trees with well developed heads.		
2 year heads, 5 to 6 foot stems	18.50	
2 year heads, 6 to 6½ foot stems	21.00	
Crab, Flowering — see Malus on page 7.		
Elm — see Ulmus.		
Linden — see Tilia.		

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale and can be filled only as outlined on page 2.

DECIDUOUS TREES — CONTINUED

MAGNOLIA soulangeana — Saucer or Chinese Hybrid Magnolia 30-40 ft.

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

		Per 10	Per 100
2 to 3 feet, B&B, own root plants	Each \$ 5.00	47.50	
3 to 4 feet, B&B, own root plants	Each 6.50	62.50	
4 to 5 feet, B&B, own root plants	Each 7.75	75.00	
5 to 6 feet, B&B, own root plants	Each 9.25	90.00	

stellata (halleana) — Star Magnolia 8-10 ft.

The hardiest of the Spring-flowering Magnolias. A much-branched wide-spreading large shrub, bearing a great profusion of large white fragrant blooms before the leaves in the Spring. Earliest of the Magnolias in bloom and blooms when very small. Own root plants.

15 to 18 inches, B&B, very bushy	Each 3.75	35.00	
18 to 24 inches, B&B, very bushy	Each 5.25	50.00	

stellata "Waterlily"

A hybrid Magnolia much resembling *Magnolia stellata* in growth. Flowers very large, somewhat larger than *M. stellata*, borne very profusely. Blush pink on first opening, fading to white. Own root plants.

18 to 24 inches, B&B, bushy	Each 5.00	47.50	
24 to 30 inches, B&B, bushy	Each 6.25		

MALUS arnoldiana — Arnold's Crab 18-20 ft.

A hybrid closely resembling *Malus floribunda*, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

5 to 6 feet	11.00	100.00
6 to 8 feet	13.50	

floribunda — Japanese Flowering Crab 15-18 ft.

Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink flowers that gradually fade to white.

4 to 5 feet	8.50	80.00
5 to 6 feet	11.00	100.00

hopa — Hopa Crab 20-25 ft.

A very attractive variety of strong upright growth. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are distinctly red fleshed.

5 to 6 feet	9.50	90.00
6 to 8 feet	11.00	100.00
8 to 10 feet	14.00	

purpurea aldenhamensis — Aldenham Crab 16-18 ft.

A showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.

4 to 5 feet	8.50	
5 to 6 feet	11.00	
6 to 8 feet	13.50	

purpurea Eleyi — Eley Crab 16-18 ft.

A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by purple fruits.

4 to 5 feet	8.50	
5 to 6 feet	11.00	
6 to 8 feet	13.50	

Maple — see *Acer*.

Mulberry — see *Morus*.

DECIDUOUS TREES — CONTINUED

Plum — see Prunus.

Poplar — see Populus.

MORUS alba pendula — Tea's Weeping Mulberry

A very nice block with strong straight stems and heavy well branched heads.

	Per 10	Per 100
2 year heads, 5 to 6 foot stems	32.50	

POPULUS alba bolleana 50-60 ft.

A narrow columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigate Poplars. Well branched transplanted trees.

2½ to 3 inch caliper, own root	35.00	
--------------------------------------	-------	--

nigra italica — Lombardy Poplar 60-80 ft.

Heavily branched transplanted trees, branched to the ground.

6 to 8 feet, low branched	4.75	40.00
1½ to 2 inch caliper, low branched	10.00	
2 to 2½ inch caliper, low branched	14.00	

PRUNUS Newport — Purple-leaved Plum 14-16 ft.

Bright reddish purple foliage that holds its color well throughout the season.

2 to 3 feet, on plum roots	7.50	70.00
3 to 4 feet, on plum roots	9.00	85.00

Thundercloud — Purple-leaved Plum 20 ft.

Probably the best of the Purple-leaved Plums. Hardy, with deep purple foliage that retains its color well throughout the Summer.

5 to 6 feet, on plum roots	15.00	135.00
----------------------------------	-------	--------

triloba — Double-flowering Plum — see under shrubs on page 12.

SALIX blanda — Wisconsin Weeping Willow 40-50 ft.

Hardest of the Weeping Willows. Green barked; spreading limbs and pendulous branches.

6 to 8 feet	10.00	
8 to 10 feet	12.00	
1¼ to 1½ inch caliper	15.00	
1½ to 1¾ inch caliper	18.00	

SORBUS aucuparia — European Mountain Ash 30-35 ft.

A valuable small ornamental tree with clusters of scarlet berries in the Fall.

5 to 6 feet	14.50	135.00
6 to 8 feet	18.00	170.00

TILIA americana — American Linden 60-80 ft.

A large native round-headed tree of rapid growth. We grow especially good Linden here at Princeton.

2½ to 3 inch caliper	47.50	
3 to 3½ inch caliper	60.00	

ULMUS americana — American White Elm 80-100 ft.

We are offering a particularly desirable type of American White Elm. Princeton is noted for its exceptionally fine Elms—tall straight trunked vase-shaped trees of the best type. Seed selected from the best of these Elms gives a very even and desirable type of vase-shaped trees.

1¼ to 1½ inch caliper	13.50	
1½ to 1¾ inch caliper	22.00	200.00
1¾ to 2 inch caliper	27.50	250.00
2 to 2½ inch caliper	35.00	325.00

DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

ACANTHOPANAX sieboldianus (pentaphyllum) — Five-leaved Aralia 6-7 ft.		
A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.		
	Per 10	Per 100
2 to 3 feet	\$ 3.50	\$ 30.00
3 to 4 feet	4.25	38.00
4 to 5 feet	5.00	45.00

ALMOND — Pink Flowering (Prunus glandulosa rosea) 5 ft		
A favorite early-flowering shrub, the branches being covered with masses of small double pink flowers as the leaves come out in the Spring.		
18 to 24 inches, own root	4.25	38.00
2 to 3 feet, own root	5.50	50.00
3 to 3½ feet, own root	6.50	

ALTHAEA or Rose of Sharon (Hibiscus syriacus) 10-12 ft.		
Bush Form, 2 to 3 feet	2.90	25.00
Bush Form, 3 to 4 feet	3.75	32.50
Anemonaeflorus — double, rose-pink.		
Jeanne d'Arc — double, white.		
Lucy — the best double red.		
Purpurea Semi-Plena — semi-double, purple.		
Rubis — single, red.		

ARONIA arbutifolia — Red Chokeberry 8 ft.		
The most handsome of the Aronias, with lustrous dark green leaves that turn scarlet in the Fall. Bright red berries.		
18 to 24 inches	4.00	
2 to 3 feet	5.00	

Aralia pentaphylla — see Acanthopanax sieboldianus (pentaphyllum)
Barberry — see Berberis.

BERBERIS thunbergii — Japanese Barberry 4 ft.		
Heavy, well-branched, transplanted plants.		
15 to 18 inches	2.60	22.00
18 to 24 inches	3.00	25.00
24 to 30 inches	(\$250.00 per 1000) 3.50	30.00
30 to 36 inches	4.00	35.00
thunbergii atropurpurea — Red-leaved Japanese Barberry 3-4 ft.		
The true bright red type, grown from cuttings. The plants should be set in full sun to retain their best color.		
12 to 15 inches	3.00	25.00
15 to 18 inches	3.50	30.00
18 to 24 inches	4.25	38.00
24 to 30 inches	5.00	45.00

CHIONANTHUS virginica — White Fringe-tree 18-20 ft.		
A very effective tall massing shrub, with large glossy leaves. Covered in the Spring with long racemes of feathery white flowers.		
18 to 24 inches	4.50	40.00
2 to 3 feet	5.50	
4 to 5 feet	7.00	60.00
5 to 6 feet	8.50	75.00

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

DECIDUOUS SHRUBS — CONTINUED

Coralberry — see *Symphoricarpos vulgaris*.

CORNUS alba siberica (Siberian Dogwood) 8-10 ft.

A vigorous tall shrub with bright red bark in the Winter.
Best of the red-branched Dogwoods.

	Per 10-	Per 1000
2 feet, well branched	4.00	35.00

COTONEASTER divaricata — Spreading Cotoneaster 4-6 ft.

Arching branches and good foliage make this a very attractive massing shrub. Covered with red berries in the Fall. This is an especially good block of plants.

2 to 3 feet	7.00	
3 to 4 feet	8.50	80.00

Cranberry, Highbush — see *Viburnum americanum* and *Viburnum opulus*.

CYDONIA japonica — Japanese Flowering Quince 5-6 ft.

A low shrub of dense bushy growth. Dark shiny foliage and clusters of showy orange-scarlet flowers just as the leaves come out in the Spring.

18 to 24 inches	4.00	35.00
-----------------------	------	-------

DEUTZIA lemoinei — Lemoine's Deutzia 5 ft.

A handsome and free-flowering semi-dwarf shrub, one of the hardiest of the Deutzias.

15 to 18 inches	3.50	30.00
18 to 24 inches	4.25	37.50
2 to 2½ feet	5.00	45.00

Dogwood — see *Cornus*.

EUONYMUS americanus — Brook Euonymus 6-8 ft.

An attractive bushy upright shrub with large and very attractive showy pink fruits. Grows in better form than most Euonymus varieties.

2 to 3 feet	4.50	40.00
3 to 4 feet	5.00	45.00
4 to 5 feet	6.00	55.00
5 to 6 feet	8.00	75.00

atropurpureus — Wahoo—10-12 ft.

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

2 to 3 feet	5.00	
3 to 4 feet	6.00	

yeddoensis — Yeddo Euonymus 8 ft.

A broad-headed shrub with good foliage and attractive pink fruit. In type of growth it is much like *Euonymus alatus* and makes a very satisfactory massing shrub.

2 to 3 feet	4.50	40.00
3 to 4 feet	5.50	50.00
4 to 5 feet	6.50	60.00

FORSYTHIA intermedia — Border Forsythia 8-10 ft.

A vigorous and free-flowering shrub with arching branches, hardiest of the Forsythias.

3 to 4 feet	5.00	45.00
-------------------	------	-------

intermedia nana — Dwarf Forsythia 2-3 ft.

A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.

15 to 18 inches	5.00	
-----------------------	------	--

intermedia primulina — Primrose Forsythia

One of the most free-flowering and showiest of all of the Forsythias.

2 to 3 feet	4.00	
3 to 4 feet	5.00	45.00

DECIDUOUS SHRUBS — CONTINUED

FORSYTHIA intermedia spectabilis — Showy Border Forsythia 8-10 ft.

An improved form of Forsythia intermedia with larger showier flowers.

	Per 10	Per 100
2 to 3 feet	4.00	
3 to 4 feet	5.00	45.00

Fringe-tree, White — see Chionanthus virginica.

Honeysuckle — see Lonicera.

HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.

Large snowball-like flowers in June and July. Prefers moist and partly shaded places.

18 to 24 inches	4.50	40.00
3 to 3½ feet	6.50	

HYDRANGEA paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.

Large paniced heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type. An exceptionally fine block.

	Per 10	Per 100
18 to 24 inches	3.50	30.00
2 to 3 feet	4.50	40.00
3 to 3½ feet	5.50	50.00

ILEX verticillata — Winterberry or Black Alder 6-8 ft.

A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.

	Per 10	Per 100
18 to 24 inches	6.00	

KOLKWITZIA amabilis — Beauty Bush 6-8 ft.

A large shrub with slender graceful arching branches covered with pink weigela-like flowers in the Spring.

18 to 24 inches	5.00	45.00
2 to 3 feet	6.00	55.00
3 to 4 feet	7.00	65.00

LIGUSTRUM amurense — Amoor River North Privet

18 to 24 inches, 4 canes and up	(\$120.00 per 1000)	1.80	15.00
2 to 3 feet, 4 canes and up	(\$150.00 per 1000)	2.25	18.00

obtusifolium (ibota) regalianum — Regal's Border Privet

The true low-growing spreading type grown from cuttings; a low dense many-branched shrub, fine for low mass plantings.

18 to 24 inch spread	3.50	
24 to 30 inch spread	4.50	40.00
30 to 36 inch spread	5.25	47.50

Lilac — see Syringa.

Lilac — French Hybrids — see special heading on page 15.

LONICERA morrowi — Morrow's Honeysuckle 8-9 ft.

One of the best of the bush Honeysuckles for massing. An upright shrub with a horizontal spreading habit of branching. Yellow and white flowers.

3 to 4 feet	5.00	
4 to 5 feet	6.00	55.00

tatarica siberica — Red Tatarian Honeysuckle 8-10 ft.

The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.

2 to 3 feet	4.50	
3 to 4 feet	5.50	

DECIDUOUS SHRUBS — CONTINUED

LONICERA tatarica zabeli — Zabel Honeysuckle 8-10 ft.

The bloom is the darkest red of any of the Tatarian Honeysuckles.

	Per 10	Per 100
18 to 24 inches	3.00	
2 to 3 feet	4.50	40.00
3 to 3½ feet	5.25	47.50
4 to 5 feet	6.25	57.50

Mock-orange — see *Philadelphus*.

Ninebark — see *Physocarpus*.

PHILADELPHUS coronarius — Sweet Mock-orange 10 ft.

The large-flowered type of the old-fashioned sweet-scented Mock-orange.

2 to 3 feet	3.60	32.00
3 to 4 feet	4.50	40.00
4 to 5 feet	5.25	47.50

virginalis — Virginal Mock-orange 7-8 ft.

The most popular of all of the hybrid Mock-oranges. A rather open grower of medium height. The flowers are very large, semi-double to double, pure white, and very fragrant. Blooms very freely in the Spring and sparingly all through the Summer.

18 to 24 inches	4.50	40.00
2 to 3 feet	5.50	50.00
3 to 4 feet	6.50	60.00

PHYSOCARPOS opulifolius — Common Ninebark 8-10 ft.

A very desirable massing shrub of good growth habit.

2 to 3 feet	3.00	25.00
3 to 4 feet	4.00	35.00
4 to 5 feet	4.50	40.00

opulifolius aureus — Golden Ninebark 8-10 ft.

A form of the Common Ninebark with yellowish green foliage.

3 to 4 feet	4.50	40.00
4 to 5 feet	5.50	

Privet — see *Ligustrum* on page 11.

PRUNUS triloba — Double-flowering Plum 7-8 ft.

A handsome, vigorous, and very hardy shrub producing a wealth of large double pink flowers before the leaves in the Spring.

12 to 18 inches, own root	4.50	40.00
18 to 24 inches, own root	6.00	55.00
2 to 3 feet, own root	7.50	70.00

glandulosa — Flowering Almond — see page 9.**RHODOTYPOS kerrioides** — Jetbead or White Kerria 4-5 ft.

A much-branched shrub, excellent for massing where low growth is desired. Does well in shaded places. White flowers in the early Spring, followed by jet black fruits.

18 to 24 inches	4.50	
2 to 3 feet	5.50	

Snowball — see *Viburnum opulus sterile*.

Snowberry — see *Symphoricarpos*.

SPIRAEA Anthony Waterer 3-4 ft.

A well known dwarf shrub with numerous heads of bright red flowers thru the early Summer.

15 to 18 inches	4.00	35.00
18 to 24 inches	4.50	
24 to 30 inches	5.00	

DECIDUOUS SHRUBS — CONTINUED

SPIRAEA frobeli — Frobel Spiraea 4 ft.

Similar in type of growth to Spiraea Anthony Waterer but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.

	Per 10	Per 100
18 to 24 inches	3.50	30.00

prunefolia plena — Double Bridalwreath 5-6 ft.

The true bridalwreath, with small plum-like leaves and very double white flowers borne in few-flowered umbels. Free-flowering.

2 to 3 feet	5.00	45.00
3 to 4 feet	6.00	55.00

thunbergii — Thunberg's Garland Spirea 3-5 ft.

A dwarf shrub with slender spreading branches and a feathery light green foliage. Covered with a wealth of small white flowers before the leaves in the Spring.

24 to 30 inches	4.00	35.00
-----------------------	------	-------

Van Houttei — commonly known as Bridalwreath 6-7 ft.

One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.

18 to 24 inches	2.50	20.00
2 to 3 feet	3.00	25.00
3 to 4 feet	3.60	32.00
4 to 5 feet	4.50	40.00

SYMPHORICARPOS chenaulti — Spotted Snowberry 4-5 ft.

The best and most handsome of the Snowberries. A hybrid with small leaves and white fruit spotted with pink.

2 to 3 feet	3.00	
3 to 4 feet	4.00	

racemosus — White Snowberry 4-5 ft.

An upright shrub, particularly adapted to planting in shaded places. Waxy-white berries in the Fall.

2 to 3 feet	2.50	22.00
3 to 4 feet	3.00	27.00

vulgaris — Red Snowberry or Coralberry 4-5 ft.

A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.

2 to 3 feet	2.50	22.00
-------------------	------	-------

Syringa — French Hybrid Lilacs — see page 15.

SYRINGA chinensis (rothomagensis) — Chinese or Persian Lilac 8-10 ft.

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep reddish purple in very large heads. This is the Persian Lilac of commerce, the true Persian Lilac, being a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

18 to 24 inches	4.00	35.00
2 to 3 feet	5.00	45.00
3 to 4 feet	6.50	60.00

prestoniae var. Miranda

The Preston Lilacs are hybrids of *S. reflexa* by *S. villosa* and much resemble *S. villosa* in foliage and robustness of growth. "Miranda" is one of the most distinct of numerous varieties. The plant is rounded, a somewhat smaller grower than *S. villosa*, with much larger flowers and flower heads. A very free bloomer with very deep pinkish lilac flowers that fade lighter but still hold their color better than *S. villosa*.

2 to 3 feet	7.50	
5 to 6 feet	11.00	100.00

DECIDUOUS SHRUBS — CONTINUED

SYRINGA villosa — Late Lilac or Pink Lilac 8-10 ft.

A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone.

	Per 10	Per 100
3 to 4 feet	5.00	45.00
4 to 4½ feet	6.50	60.00

VIBURNUM americanum (trilobum) — American Cranberry 8-10 ft.

Similar to the European High-bush Cranberry, but a more handsome plant. Bears a profusion of orange-scarlet berries in the Fall.

18 to 24 inches	4.50	40.00
2 to 3 feet	5.50	50.00
3 to 4 feet	6.50	60.00

carlesi — Fragrant Viburnum 4-6 ft.

One of the most desirable of the semi-dwarf flowering shrubs. The delicate pink flowers are long-lasting and very fragrant.

24 to 30 inches, B&B	Each \$ 4.50	42.50	400.00
----------------------------	--------------	-------	--------

opulus — European High-bush Cranberry 10 ft.

A well-known tall hardy shrub with large clusters of scarlet fruit in the Fall that remain on the plant until late Winter.

18 to 24 inches	4.50	40.00
2 to 3 feet	6.00	

opulus sterile — Common Snowball 10 ft.

The well known old-fashioned Snowball.

15 to 18 inches	3.20	28.00
18 to 24 inches	4.00	35.00
2 to 3 feet	5.00	45.00
3 to 3½ feet	6.00	55.00

pubescens — Downy Viburnum 5-6 ft.

Very similar in appearance to Viburnum dentatum but a much slower and dwarfer grower.

18 to 24 inches	5.00	45.00
2 to 2½ feet	6.00	

WEIGELA Eva Rathke — Red-flowered Weigela 4-5 ft.

Brilliant crimson flowers, a very profuse bloomer.

2 to 3 feet	5.50	50.00
3 to 4 feet	6.50	

rosea — Pink Weigela 7-8 ft.

Best known of the Weigelas, with showy pink flowers late in May.

2 to 3 feet	4.00	35.00
3 to 4 feet	5.00	45.00

FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list containing the better and more popular of the older varieties as well as many of the newer and finer types. However, our stock available for shipment this season is limited and short on many varieties.

OWN-ROOTS PLANTS—Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the fields. There is of course a little difference in how long it takes for the different varieties to go onto their own roots but any of our plants which have been grown in the field two years after transplanting are at least started on their own roots.

For color classification and description of varieties see pages 15, 16 and 17.

FRENCH LILACS—DESCRIPTIVE LIST

Varieties marked with an asterisk (*) are among those included in the list of one hundred "best" Hybrid Lilacs selected by the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums based on ratings received in a study of better than 500 varieties recently made by the Committee.

- *Adelaide Dunbar—flowers large, semi-double to occasionally double, in long narrow clusters; deep maroon-red in bud opening violet red. One of the darkest red lilacs.
- *Bleuatre—flowers of medium size, single, a distinct bluish lavender; free flowering. A very good single "blue".
- *Charles Joly—flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around dark reds.
- *Katherine Havemeyer—flowers large, double, in large compact clusters; cobalt blue flushed mauve. A splendid variety both in flower and growth characteristics. Sometimes classed as a pink, but to us belongs more in the so-called "blues".

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

FRENCH LILAC

Descriptive List — Continued

- ***Ludwig Spaeth**—flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark Lilac.
- ***Marie Legraye**—flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.
- ***Maurice Barres**—flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.
- Michel Buchner**—flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.
- ***Mme. Casimir Perier**—large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.
- ***Mme. F. Morel**—flowers single, extra large, in extra large full showy clusters. deep reddish purple in bud opening somewhat lighter. A fine variety, particularly on account of its size.
- ***Paul Therion**—large double flowers in very large and showy well-filled clusters; rosy lavender tinged claret, much resembling large double violets. A very fine and showy variety.
- ***Pres. Lincoln**—flowers single, medium in size, in long open narrow-pyramidal clusters; wedge-wood blue, an unusual color in lilacs and probably the nearest to a true blue.
- ***Reaumur**—flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.
- ***Ruhm von Horstenstein**—flowers very large, single in long narrow trusses; an even dark reddish purple. A very promising free-blooming new variety.
- William Robinson**—flowers double, large, in large open irregular clusters; deep red in bud expanding to light crimson.

FRENCH LILACS—CLASSIFICATION TO COLOR

As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good idea of color tones, we have divided the Lilacs on our list into nine general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

The color classification given here follows that included in the recent report of the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums. The varieties under each color group are listed according to their place preference in the Committee report.

White Varieties

Single Varieties—Mont Blanc, Jan Van Tol, Mme. Florent Stepman, Marie LeGraye, Frau Bertha Dammann.

Double Varieties—Edith Cavell, Ellen Willmott, Jeanne d'Arc, Mme. Lemoine, Mme. Casimir Perier.

Violet Shades

Single Varieties—DeMirabel, Cavour, Louvois.

Double Varieties—Marechal Lannes.

Blue Shades

Single Varieties—President Lincoln, Decaisne, Bleuatre.

Double Varieties—Emile Gentil.

Bluish Lilac Shades

Single Varieties—Maurice Barres, General Sherman.

Double Varieties—Katherine Havemeyer, President Grevy, President Carnot.

Lilac Shades

Single Varieties—Hugo Koster, Pascal.

Double Varieties—President Fallieres, Leon Gambetta, Desfontaines, Michel Buchner, Renoncule, Alphonse Laval.

Lilac Pink Shades

Single Varieties—Lamartine, Descartes.

Double Varieties—Waldeck Rosseau, Jules Ferry, General Pershing, Jean Mace, Vauban, Claude Bernard.

FRENCH LILACS
Classification to Color — Continued

Pink Shades

Single Varieties—Lucie Baltet, Frau Wilhelm Pfitzer, Buffon.
Double Varieties—Mme. Antoine Buchner, Montaigne, Edouard Andre.

Reddish Purple Shades

Single Varieties—Mme. F. Morel, Captaine Baltet, Reaumur, Congo, Ruhm Von Horstenstein, Charles X, De Croncels.
Double Varieties—Paul Therion, Mrs. Edward Harding, Charles Joly, Souv. de Louis Thibault, William Robinson.

Deep Purple Shades

Single Varieties—Ludwig Spaeth, Etna, Laplace, Diderot, President Massart.
Double Varieties—Adelaide Dunbar, Paul Hariot.

CLIMBING VINES

AMPELOPSIS veitchii (Ampelopsis tricuspidata) — Boston Ivy

The best known and most popular of the stone climbers; attractive foliage that turns brilliant crimson in the Fall. We have a fine stock of heavy well grown plants.

	Per 10	Per 100
3 year, No. 1	\$ 4.50	\$ 40.00
2 year, medium	3.25	28.00
2 year No. 1	4.00	35.00

CELASTRUS scandens — Native Bittersweet

Yellow-green foliage and very showy orange-red fruits in the Fall.

2 year, No. 1	3.50
---------------------	------

CLEMATIS paniculata — Sweet Autumn Clematis

2 year, No. 1	4.00	35.00
---------------------	------	-------

CLEMATIS — Large-flowering Hybrids

No. 1, dormant	6.00	55.00
----------------------	------	-------

Duchess of Edinburgh — double, pure white.
Henryii — single, pure white.
Jackmanni — rich purple.
Mme. Edouard Andre — carmine violet.
Ramona — lavender-blue.

POLYGONUM aubertii — China Fleece-vine

A light but very vigorous and rapid grower, covered by a wealth of foamy sprays of small white flowers during the late Summer and early Fall.

2 year, No. 1	4.00	35.00
---------------------	------	-------

WISTARIA chinensis — Purple Chinese Wistaria

Grafted from blooming wood.

2 year, No. 1	5.00
---------------------	------

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

EVERGREENS

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selections of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually 20%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

JUNIPERUS chinensis columnaris glauca — Blue Chinese Column Juniper 20 ft.

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

	Each	Per 10	Per 100
2 to 2½ feet, B&B	\$ 3.50	\$ 32.50	
2½ to 3 feet, B&B	4.50	42.50	375.00
3 to 3½ feet, B&B	5.25	50.00	
3½ to 4 feet, B&B	6.25	60.00	

chinensis keteleeri — Keteleer's Juniper 15-18 ft.

A splendid type of formal pyramidal outline, compact and bushy. The leaves are scale-like and dark green in color.

2½ to 3 feet, B&B	4.25	40.00	375.00
-------------------------	------	-------	--------

chinensis pfitzeriana — Pfitzers Juniper

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

15 to 18 inch spread, B&B	3.25	30.00	
18 to 24 inch spread, B&B	4.00	37.50	
24 to 30 inch spread, B&B	5.00	47.50	450.00

chinensis sargentii — Sargent's Juniper

A prostrate form with creeping stems and ascending branches, forming a close dense mat,

15 to 18 inch spread, B&B	3.25	30.00	
18 to 24 inch spread, B&B	3.75	35.00	

communis hibernica — Irish Juniper 10-12 ft.

A very narrow-columnar tree with upright branches, more compact and requiring much less shearing than the usual form of Irish Juniper.

2 to 2½ feet, B&B	2.00	17.50	160.00
2½ to 3 feet, B&B	2.50	22.50	200.00
3 to 3½ feet, B&B	3.00	27.50	
3½ to 4 feet, B&B	3.50	32.50	

excelsa stricta — Spiny Greek Juniper 4-5 ft.

A slow-growing Evergreen with gray-green foliage that forms a compact well-shaped pyramid. Especially useful in formal plantings.

18 to 24 inches, B&B	2.75	25.00	
2 to 2½ feet, B&B	3.00	27.50	250.00
2½ to 3 feet, B&B	3.50	32.50	300.00
3 to 3½ feet, B&B	4.00	37.50	350.00

horizontalis plumosa — Andorra Juniper

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

15 to 18 inch spread, B&B	2.75	25.00	225.00
18 to 24 inch spread, B&B	3.25	30.00	275.00
24 to 30 inch spread, B&B	3.75	35.00	

EVERGREENS — CONTINUED

JUNIPERUS squamata meyeri — Meyer Juniper 3-4 ft.

A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish-green in color. A very handsome plant on account of its dense growth and foliage color.

	Each	Per 10	Per 100
15 to 18 inches, B&B	3.25	30.00	

virginiana burki — Burk's Juniper 10-12 ft.

A dense narrow-columnar form of *Juniperus virginiana* with a silvery blue foliage. The foliage is not as blue as that of *Juniperus virginiana glauca*, but the plant is a much better grower, being more erect and pyramidal.

2 to 2½ feet, B&B	3.50	32.50	
2½ to 3 feet, B&B	4.25		

virginiana canaerti — Canaert Red Cedar 12-15 ft

Probably the best of the many forms of *Juniperus virginiana*. When properly trimmed it is a dense-growing symmetrical pyramid with heavy rich dark green foliage.

2 to 2½ feet, B&B	3.75	35.00	325.00
3½ to 4 feet, B&B	7.50		

virginiana hilli — Dundee Juniper 12-15 ft.

One of the most attractive of the upright *Junipers*. An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the Winter.

2 to 2½ feet, B&B	3.50	32.50	300.00
2½ to 3 feet, B&B	4.50	42.50	400.00
3½ to 4 feet, B&B, heavy	7.35	70.00	

PICEA glauca densata — Black Hills Spruce 50-60 ft.

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

3½ to 4 feet, B&B	4.50	42.50	
4 to 5 feet, B&B	5.75	55.00	

PSEUDOTSUGA douglasii (taxifolia) — Douglas Fir

One of the most decorative of the larger growing evergreens. It is a rapid grower, forming a compact and symmetrical pyramid. The foliage is very attractive and varies from a dark green to a dark silvery blue

18 to 24 inches, B&B	2.50	22.50	200.00
2 to 3 feet, B&B	3.00	27.50	250.00
3 to 3½ feet, B&B	3.75	35.00	

TAXUS cuspidata — Spreading Japanese Yew 10-12 ft.

A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.

15 to 18 inch spread, B&B	4.75	45.00	425.00
18 to 24 inch spread, B&B, heavy	6.25	60.00	
24 to 30 inch spread, B&B, heavy	7.50	72.50	

cuspidata brownii — Brown's Yew

A rapid grower with heavy waxy dark green foilage. More upright in growth than the regular type of *Taxus cuspidata*.

15 to 18 inches, B&B	5.00	47.50	
18 to 24 inches, B&B	5.75	55.00	

cuspidata capitata — Upright Japanese Yew 25-30 ft.

The upright form of Japanese Yew, a dense broadly conical tree. These trees were grown from cuttings and are of an even deep green type.

2 to 2½ feet, B&B	7.25	70.00	
-------------------------	------	-------	--

EVERGREENS — CONTINUED

TAXUS media hunewelliana — Hunewell Yew

In our opinion this is one of the best Yews for this section of the country. It is a rapid compact grower with attractive dark green foliage that does not change color during the winter. Similar in type of growth to Taxus cuspidata, tho somewhat more upright. The most rapid in growth of any Yew that we have had here at Princeton.

		Per 10	Per 1000
15 to 18 inch spread, B&B	4.75	42.50	400.00
18 to 24 inch spread, B&B, heavy	6.00	57.50	575.00
24 to 30 inch spread, B&B, heavy	7.25	70.00	700.00

media Irish

One of the newer types of Yews, growing in an upright globe-shaped form similar to Browns Yew. Very dark green foliage, hardy, and a very rapid grower.

18 to 24 inches, B&B	6.00	57.50	
----------------------------	------	-------	--

THUYA occidentalis nigra — Dark Green American Arborvitae 20-30 ft.

A selected type of the American Arborvitae with very dark green foliage and a narrow-pyramidal habit of growth.

18 to 24 inches, B&B	1.80	16.50	150.00
2 to 2½ feet, B&B	2.25	20.00	175.00
2½ to 3 feet, B&B	2.75	25.00	220.00
3 to 3½ feet, B&B	3.00	27.50	250.00

occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.

The most popular of the Arborvitae types. A narrow-columnar pyramid, splendid for accents, which holds its deep green color well.

2 to 2½ feet, B&B	2.60	23.50	210.00
2½ to 3 feet, B&B	3.25	30.00	275.00
3 to 3½ feet, B&B	4.00	37.50	350.00
3½ to 4 feet, B&B	4.50	42.50	400.00

TSUGA canadensis — Canadian Hemloch 75-90 ft.

One of the most graceful and adaptable of the larger growing evergreens. Ordinarily an upright conical tree, it adapts itself very satisfactorily as a trimmed hedge. Does well in partial shade.

2 to 2½ feet, B&B	3.25	30.00	
-------------------------	------	-------	--

TRANSPLANTED ROSES

During the Spring of 1950 we transplanted here at Princeton a number of lighter grade Hybrid Tea Roses. They made a very good growth and, while they will be slightly rougher than the regular 2 year No. 1 Oregon grown Roses, they are very satisfactory plants for use where a cheaper rose is desired. Quantities in all varieties are limited.

	Per 10	Per 1000
2 year No. 1	\$ 5.00	\$ 45.00
2 year No. 1½	4.00	35.00

Autumn	Editor McFarland	Mrs. Pierre S. Dupont
Betty Uprichard	Heinrich Wentland	Pink Radiance
Condessa de Sastago	Joanna Hill	Pres. Herbert Hoover
Dame Edith Helen	McGredys Ivory	Sister Therese
Duquessa de Penaranda	Mrs. Charles Bell	Ville de Paris
	Mrs. E. P. Thom	

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale and can be filled only as outlined on page 2.

ROSES

OREGON GROWN ON MULTIFLORA JAPONICA

Source of Roses Important:—The Middle West, with its hot dry summers, is a hard climate in which to flower Roses and the source of planting stock has been found to be almost as important an item in successful Rose growing here as is the selection of varieties. For a number of years we have been using these Oregon grown Roses and have found that they have given better results than those we have had from any other source. They are sturdy, well rooted and well matured plants, without any coarse overgrowth. They are somewhat more expensive than southern grown Roses, but are well worth the difference in price. We do not offer any southern grown Roses.

HYBRID TEA ROSES

	Per 10	Per 100
2 year No. 1	\$ 7.00	\$ 65.00

RED SHADES

- Ami Quinard** — a vigorous grower with dark blackish-garnet buds opening dark velvety crimson, very fragrant.
- Etoile de Hollande** — the finest dark red rose for this section; a strong grower and free bloomer, very fragrant.
- Glowing Carmine** — a tall vigorous grower and continuous bloomer with long-lasting slightly fragrant deep carmine blooms.
- Grenoble** — a tall vigorous grower with long-stemmed scarlet-red flowers that do not fade. One of the better reds for this area.
- Gruss an Teplitz** — the hardiest of the Hybrid Tea Roses, a free and continuous bloomer; medium sized flowers in clusters; deep scarlet-crimson.
- Margaret McGredy**—large full fragrant blooms of orange scarlet; a vigorous grower and dependable bloomer.
- Red Radiance** — a free-blooming bright rosy-red counterpart of Radiance, of sturdy growth and delightful fragrance.
- Southport** — full-double cupped flowers, long-lasting and very fragrant; a very brilliant and unfading scarlet.

PINK SHADES

- Betty Uprichard** — delicate salmon-pink stained coppery-red on the outside of the petals. A vigorous grower and profuse bloomer.
- Dame Edith Helen** — one of the largest and most perfectly shaped of the Hybrid Teas; bright glowing pink, very fragrant: a particularly good outdoor rose for this section.
- Editor McFarland** — large well-formed semi-double bloom, very fragrant; bright glowing pink suffused yellow.
- Mme. Butterfly** — an Ophelia sport; very free-flowering, salmon-pink shaded yellow at the base.
- Radiance** — large, brilliant rose-pink. The Radiance type is one of the best of this section of the country, as it will continue to produce flowers during the most unfavorable hot weather. Strong upright grower, free bloomer.

WHITE SHADES

- Caledonia** — long-pointed buds opening to large, very double, and long-lasting pure white flowers.
- Kaiserin Auguste Viktoria** — free-flowering slightly fragrant, very double; the standard pure white bedding rose.
- McGredy's Ivory** — a very vigorous variety with large, fragrant, well-shaped creamy-white flowers with a light yellow base.
- Mme. Jules Bouche** — a medium sized but superb white with a tingle of blush at the center; very prolific.

HYBRID TEA ROSES — Continued

YELLOW SHADES

- Golden Dawn** — well formed and fragrant; rich sunflower-yellow flushed old-rose in bud, opening sunflower-yellow.
- Mrs. E. P. Thom** — long buds and large well-shaped flowers of canary-yellow; vigorous and dependable, free-flowering.
- Mrs. Pierre S. DuPont** — reddish gold in bud opening to a deep yellow. A strong vigorous grower and profuse bloomer.
- Sister Therese (Socur Therese)** — a vigorous, free-blooming and very dependable yellow with long pointed buds and full double blooms.

TWO-TONED SHADES

- Condesa de Sastago** — vigorous and prolific. Blooms very large, fragrant, and double; deep coppery-pink within, golden yellow on outside of petals.
- Duquesa de Penaranda** — a strong vigorous variety, very free-flowering. Blooms very large, fragrant, apricot-orange to deep pink.
- Heinrich Wentland** — a sturdy free-flowering variety, distinctly two-toned. Unfading nasturtium-red, reverse deep golden yellow.
- Mme. Joseph Perraud** — long slender pointed buds opening to large double blooms; orange buff shading to a deep pink at the petal margins, a superior rose.
- Mrs. Sam McGredy** — a very fine tri-color with long-pointed buds and large scarlet-copper-orange flowers that are flushed with red on the outside of the petals. A vigorous disease resistant plant and a prolific bloomer.
- President Herbert Hoover** — one of the most popular of the Hybrid Tea Roses for this area. A free-blooming rose with large flowers; an unusual combination of orange, gold, and maroon.

DWARF POLYANTHA ROSES

	Per 10	Per 100
2 year No. 1 Buds	\$ 7.00	\$ 65.00
Else Poulsen — large semi-double flowers in clusters, bright rose-pink. An abundant and recurrent bloomer, one of the best of the bedding roses.		
Improved Lafayette — semi-double, open, deep glowing red suffused crimson.		
Golden Salmon — bright orange-salmon: a continuous bloomer, fine for mass planting.		
Orange Triumph — a fine variety of strong growth, blooming in enormous clusters of salmon-red flowers with orange shadings.		

CLIMBING ROSES

	Per 10	Per 100
2 year No. 1 Buds	\$ 7.00	\$ 65.00
Climbing American Beauty — vigorous, hardy, free-flowering; the blooms are large, very double, and bright crimson.		
Dr. Van Fleet — rich shell-pink, pointed buds, large semi-double flowers on long stems.		
Paul's Scarlet Climber — large well-shaped semi-double flowers in clusters, a vivid scarlet that fades but little, the most popular large-flowered Climber.		
Silver Moon — long creamy white buds; flowers very large, semi-double, silvery-white showing yellow stamens.		

HYBRID RUGOSA ROSES

	Per 10	Per 100
2 year No. 1 Buds	\$ 6.50	\$ 60.00
F. J. Grootendorst — small double brilliant crimson flowers in clusters: a very fine hardy bedding Rose that blooms from May until November.		
Grootendorst Supreme —A sport of F. J. Grootendorst with deeper crimson-red flowers which are also longer lasting.		

RAMBLER ROSES

	Per 10	Per 100
No. 1 — Own Root	\$ 4.50	\$ 40.00

Excelsa (Red Dorothy Perkins) — intense scarlet, large clusters of small flowers probably the best of the red Ramblers.

Gardenia — small flowers in clusters. Yellow buds and creamy-yellow flowers.

PEONIES

All of the Peonies listed here are in storage and are available for shipment at any time. They can be held in good dormant condition until the season is well advanced.

Reduced Prices—We have a considerable quantity of Peonies in storage for shipment this Spring and have drastically reduced prices to clear.

Descriptions in a list of this type are necessarily limited and where fuller descriptions are required they will be sent on request. All varieties are understood to be what is technically known as "double type" unless otherwise specified.

Figures following the name of the variety show ratings according to the latest classification of the American Peony Society. (*) indicates newer varieties not yet rated.

GRADE:—All of the plants offered are strong divisions of three year old plants, carrying from 3 to 5 eyes, well rooted, well balanced, and well developed plants.

SPECIAL APPLICATION OF PRICES:—5 plants of a variety will be furnished at the rate per 10, 30 or more at the rate per 100. The rate per 100 will also apply on orders for named varieties totaling 100 plants or more when such orders call for not less than ten plants of a variety. Less than five plants of a variety will be furnished at 5c per plant over the rate per 10, except for varieties listing at \$10.00 or more per 10, where the rate per 10 will apply on all quantities.

PEONIES TO COLOR

We make these up from named varieties of our own selection, shipping without differentiation of varieties.
